Registration Deadline – 2/25/08

Target Audience: Emergency responders, including law enforcement agencies, fire departments, hazardous service personnel, or other personnel; i.e., ems, hospitals, public works, etc.

Course Descriptions:

WMD Radiological/Nuclear Awareness/Train-the-Trainer – 11 March, 2008
(8:00 AM – 5:00 PM)

This course trains instructors to instruct the weapons of mass destruction (WMD) Radiological/Nuclear course (AWR 140) designed for first responders and other personnel who are likely to be the first to arrive on the scene of a radiological/nuclear incident. It guides the instructor on how to present the Awareness course that focuses on the basics of radiation, possible health effects, hazard identification, and proper notification procedures. The course consists of classroom instruction.

Prerequisites: Student must be instructor qualified or in the process of obtaining qualification

WMD Radiological/Nuclear Responder Operations Course – 12-14 March, 2008
(8:00AM – 5PM Daily)

The Responder course draws from an Awareness level of knowledge the student has on the basics of materials technicians, bomb squads, SWAT, public health services, emergency medical radiation, possible health effects and hazard identification. The training focuses on basic radiological detection, survey instruments, risk-based response, crime-scene preservation, personal protective equipment (PPE), and radiological incidents. The course consists of both classroom instruction and scenario-driven, hands-on, performance-oriented practical exercises with actual radiological sources. Although every participant will be issued a radiation survey meter, participants are encouraged to bring their own from their home department or jurisdiction.

Prerequisite: Students must have attended a WMD awareness course within the last five years.

THERE IS NO COST TO THIS TRAINING
