

IN THE NEWS

In its 22nd year, the Annual Fire Service Legislative Day in Springfield was held on April 10, 2019. Our members spent the day at the capitol meeting with their respective legislators and many new members who have taken office this year. The meetings allow members time to share information on their roles, successes and challenges with their fire district, but also educate them on bills we have introduced and moving through the process. The evening reception co-hosted by IAFPD and five of our fire service partners was slightly hindered with session running into the late evening hour, but still allowed opportunity for many fire service officials to greet and thank a few senators and representatives. **Thank you to all who attended and the other supporting organizations who contribute to this event each year: Illinois Fire Chiefs Assn., NIAFPD, Illinois Firefighters Assn., Illinois Fire Safety Alliance and NFSA.**

Congratulations **Chief Jeffrey Macko** from **Cary Fire Protection District** on his recent retirement after 45 years on January 11, 2019. Chief Macko started in 1973 and worked through the ranks with his first promotion to Lieutenant in 1979, Captain in 1986, POC Asst. Chief in 1991, Deputy Chief in 1998 and Fire chief in 2000. Chief Macko has been active and held leadership positions including Lake and McHenry County Chiefs Association, Illinois Fire Chiefs Association, Illinois MABAS President and MABAS Division #5 President.

Congratulations to **Minooka Fire Protection District** and **North Aurora FPD** for achieving a **Class #1 ISO Rank and Certification**. This achievement represents exemplary public protection by classifying communities' ability to suppress fires, ISO helps the communities evaluate their public fire-protection services. The program provides an objective, countrywide standard that helps fire departments in planning and budgeting for facilities, equipment, and training. And by securing lower fire insurance premiums for communities with better public protection, the PPC program provides incentives and rewards for communities that choose to improve their firefighting services.
