

Movin'On Up - The Fire Call

Thank you for the interest in featuring your fire protection district in the IAFPD quarterly publication The Fire Call.

As you know, the Movin' On Up column presents an opportunity to publish the accomplishments, new equipment, enhancements, and latest news about your District. To help with the process, below are a few points you may want to consider when writing this article.

DISTRICT BACKGROUND:

Introductions typically provide a brief description of district's location, some history and facts about the services. Items such as size, population, value, number of annual calls can be stated.

THEN VS. NOW:

Mention the challenges your district has overcome. Some districts opt to say how they got where they are today?

NEW STATION, NEW EQUIPMENT:

This is an excellent time to show off your new stuff. Send a photograph with your story and we'll be sure it's included. Perhaps you might share the deciding factors in what was purchased?

ANY ADVICE FOR SIMILAR DISTRICTS:

Whether it's applying for grant funds or a revolving loan program, others may need to know what obstacles to expect.

WHAT'S NEXT FOR YOUR DISTRICT?

List your future goals and plans.

Again, we appreciate your involvement with our publications. To assure your District is included in the next issue, **please email your article by one of the following deadlines** for each issue: Winter - Dec. 21 / Spring - Mar. 21 / Summer - June 21 / Fall - Sept. 21

If you concerns on the submission deadline or questions on *The Fire Call*, please do not hesitate to call. I look forward to hearing about your fire district.
