About the Cover: The IAFP and IFCA have formed a new partnership that brings both associations together for a first annual Illinois Fire Service Conference. The collaboration presents the opportunity to save time, travel, and money for those who regularly attend both events while increasing the apparatus display and expanding the educational offerings. The Illinois Fire Service Conference (IFSC) is open to **all** fire departments and districts. The IAFP and IFCA asks that all members consider supporting this event whether they can attend one day or the entire conference to be held June 14-17, 2023. The event details will be distributed via e-mail and posted on each of our websites in the weeks ahead.

The content of articles contained in **THE FIRE CALL** solely reflects the personal opinions of the authors or contributors and does not necessarily represent the official opinion or position of the IAFP, its officers, directors, members or staff. **THE FIRE CALL** Publication is intended and designed to provide accurate and authoritative information regarding the subject matter covered. These services are provided with the understanding that the Illinois Association of Fire Protection Districts is not engaging or rendering in any specific legal or professional services.

The products and services advertised in **THE FIRE CALL** are not to be construed as being endorsed by IAFP, its officers, directors, members or staff.
